THERE WERE NO BIDS SUBMITTED FOR THIS PROJECT.

Section 2-8 of the standard Construction Specifications states: "the Contractor shall perform, with his own organization and with workers under the Contractors immediate supervision, work of a value not less than 50% of the value of the original Total Contract Price." ... Where an entire item is subcontracted, the value of the work subcontracted will be based on the Contract item bid price. When a portion of an item is subcontracted, the value of the work subcontracted will be based on the estimated percentage of the contract item bid price, determined from information submitted by the contractor, subject to approval by the Agency.
The Contractors were asked to verify the actual value of work being performed by their Sub Contractors. Those values are listed listed for the lowest three proposals.
