

Olive Grove Three-Year-Old Preschool Program

Tuesdays & Thursdays 8:30 AM to 12:00 PM
Classes Begin August 16th

This program is designed as an introduction to preschool for children three-years-old.* Children explore the preschool environment and experience all that happens during a preschooler's day...art, dramatic play, circle time, learning centers & discovery, fieldtrips, music and movement, outside play as well as obtain a basic introduction to academic concepts including name writing, colors, shapes, letters and numbers. The children participate in learning centers and activities that surround general classroom themes. This program is also a great way for children to learn how to appropriately handle conflicts within a classroom setting.

Curriculum & Activities planned by qualified, educated persons with years of experience not only as preschool teachers but also with working with children of all ages!
