This program is designed to compliment our three-year old program. Children again explore the preschool environment and experience all that happens during a preschooler's day! The Preschool 4's class focuses upon teaching and mastery of the many Kindergarten Readiness concepts and skills needed for your child to have a successful transition into their first year of formal elementary school. This makes for an easier transition for the children from preschool to Kindergarten. This formal curriculum is incorporated within the preschool daily schedule of learning centers, art, dramatic play, circle time, sharing, snack, music and movement, story time, outside play and field trips.
